

Chestnut Class Topic Projects - Autumn Term

To be in school from **FRIDAY 14th OCTOBER 2016**.

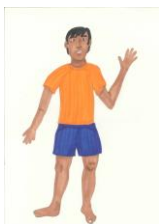

We will be presenting the projects throughout the week so all projects should be in school by **TUESDAY 18th October 2016** so as to display for families in Celebration Assembly on Friday.

Children must complete **ONE** task but are welcome to do more if they would like to.

Science Project

Our focus is upon our bodies and our senses.

Find out about the human body.

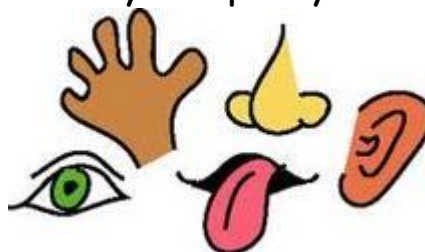

You can think about our bones or our body parts. You can present this in ANY way you wish.

Creative Project

This project relates to your senses.

Create a way to explore your senses.

This could be something for all of your senses or just one. All you need to do is create something for others to explore their senses.

PSHE Project

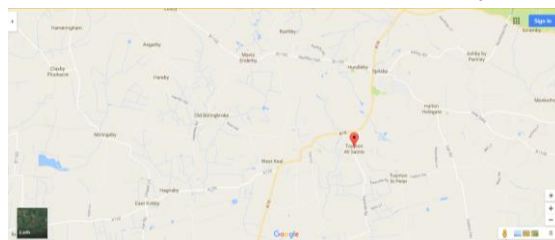

Investigate your family and your previous generations.

You could draw a picture, create a poster, use the computer...it is up to you. Share with your class what you know about your family. You could share with us the family you know or even further back.

Geography Project

Learn about our local area.

We are surrounded by villages and towns. What do you know about them?

You could choose where you live, where our school is or one of the local towns.

Share what you find out in any way you want to.

Parents / Carers, can you please sign and return this slip to **Miss Gray**.

I am aware that my child has this homework project and needs to spend approximately 2 hours on the work; also that the project should be in school by **TUESDAY 18th October 2016**.
